SCM412
SC Info. Technology

SCM413
Supply Chain Operations

SCM421
Global Strategic Sourcing

SCM 422
SC Planning & Financial Analysis

SCM312 – Supply Chain Analytics

Resource Allocation, Procurement Decisions, Pricing, Outsourcing, Demand Planning, Inventory Control Models; Transportation, Assignment and Network Models

SCM311 - Intermediate SCM

Planning, Sourcing, Manufacturing and Service Operations, and Logistics/Distribution

BA 331 – Supply Chain Management
SCM 311 – Intermediate Supply Chain Management
The concepts, principles, and methods used to plan, organize, and manage supply chain elements in a global environment. A balanced view of logistics, distribution, operations and purchasing is covered along with the integration among supply chain members of these vitally important areas.

SCM 312 – Supply Chain Analytics
This course provides an introduction to the principal analytical tools and methods used in supply chain management. The course includes a heavy emphasis on the development of analytical skills to solve relevant supply chain and logistics problems including: Resource Allocation, Procurement Decisions, Pricing, Outsourcing, Demand Planning, Inventory Control Models; Transportation, Assignment and Network Models.

SCM 411 – Supply Chain Modeling and Analysis
This course explores the key issues associated with the design and analysis of dynamic, flexible, and responsive supply chain systems. Emphasis will be on the application and development of advanced modeling techniques for the analysis of strategic, tactical and operational supply chain problems including: supply chain network design, inventory management, transportation management, purchasing, demand management, and coordination among supply chain partners.

SCM 412 – Supply Chain Information Technology
Introduces students to supply chain management (SCM) technologies, including a broad range of information technology (IT) capabilities from automating data capture to facilitating supply chain design. Content spans computer technology, including larger server-based, data intensive software to PC-based decision technology to the current trend toward Web-based software and cloud computing.

SCM 413 – Supply Chain Operations
Analysis of supply chain operations and management techniques applied to manufacturing, transportation, warehousing, and distribution center operations.

SCM 421 – Global Strategic Sourcing
Addresses the processes that facilitate the structure, development, and management of value added transactions and relationships between supplier and customer organizations in a global supply chain context. The course examines the management of the business purchasing function, including supplier selection and development, quality control, and performance measurement.

SCM 422 – Supply Chain Planning and Financial Analysis
This course focuses on the development of tactical plans in support of the firm’s supply chain strategies, with an emphasis on how to integrate these plans into a unified and coordinated supply chain system. Students are exposed to concepts and models important in supply chain planning with emphasis on key financial and operational tradeoffs.

SCM 460 – Global Strategies for Supply Chain Management
Capstone course with emphasis on strategic supply chain management from a global perspective. Integrates supply chain concepts, framework, processes, and tools learned in previous supply chain management course work.

SCM 499 – Special Topics in Supply Chain Management
Seminar designed to study current issues in supply chain management.
Undergraduate Internships

• The SCM faculty strongly encourage students to do an internship to enhance and complement their learning experience.

• UT students are highly recruited throughout the year to fill intern & co-op positions nationwide in a variety of industries and settings.

• Many SCM employers recruit for internships and co-ops during the Fall semester
The UT Center for Career Development is ready to support your recruiting needs –

- **ALWAYS AVAILABLE** to talk with employers about the many recruitment services offered by their office;
- **DEDICATED STAFF** for our college and major who are available to assist students as they progress through their academic career;
- **HOST the SCM JOB FAIR** each Fall;
- **ONGOING OPPORTUNITIES** each semester for employers to interface with students & recruit for positions.

Spring 2018 Job & Internship Fair!

*When: Tuesday, February 6*
*Time: 2:00-6:00 PM*
*Location: Thompson-Boling Arena*

**Mary Mahoney**, Assistant Director, UT Center for Career Development, at: [mmahoney@utk.edu](mailto:mmahoney@utk.edu) or 865-974-5435

• Prepare for Forum Events
Full-Time MBA Program

Innovative - Team Based - Cross Functional

OUR MBA program is transformational. Students are immersed in an atmosphere that encourages analytical, adaptable, and global thinking and decision making. They also gain perspective on the global business experience through a required global trip and capstone course. These are high potential individuals prepared to add value to your organizations.

RECRUITING OPPORTUNITIES

Internship Requirement
The program requires students to secure a summer internship to gain valuable hands-on experience.

Full-Time
UT MBAs graduate in December and are prepared and ready to add value to your company.
