Haslam MBA graduates have well-developed technical and analytical skills coupled with business acumen and willingness to continue to learn and develop.

They understand that leadership is a commitment to consistent, clear and focused communication, and have been immersed in team-based applied learning situations to encourage competition, compromise and accountability.

Our students gain a global perspective through an international trip and a global business seminar that give a first-hand look at the cultural and economic complexities of international business.

I have an amazing opportunity to apply what I have learned from the Haslam College of Business in my internship to provide innovative solutions in the logistics center at Nike. To be able to have such an impactful role as an intern is something I attribute to the personal and professional development the MBA program has given me.

The Haslam College of Business at the University of Tennessee is an important part of our college hiring program. Previously hired MBA graduates from Haslam are successful at Dell Technologies because they are strong communicators with excellent business skills, complementary cultural values, and dynamic analytical skills. We’ve had tremendous success with MBA graduates from the Haslam College of Business at the University of Tennessee and look forward to welcoming new graduates this year.

DELL

Steve Sturr,
Vice President Global Services
UT students are able to bridge academic theory with tangible analytical insights that bring value to our business and clients. They are equipped to lead and consistently have outstanding analytical skills.

AT&T
Dana L. Moore, Lead College Recruiting Manager

Recruiting MBA talent from the Haslam College of Business has been both fruitful and seamless. Their students are diverse and accomplished, and they demonstrate strong business acumen and leadership potential.
